Certification in Website
Development and
Management

SKILLS

- Backend Development
- Frontend Development
- Query Optimazation
- UI/UX Design
- Problem Solving and collaboration using git
- Graphics design
- Rest API
- Database Design
- Learning and adapting to new technologies faster

PROFILE

- Versatile Web Developer and UI/UX Designer with expertise in building end-to-end digital products.
- I combine a creative eye for graphic design with a technical background in Database Management to deliver scalable, high-performance applications. Proven track record of improving user engagement by up-to 50% through data-driven design and optimized back-end architecture.

EXPERIENCE

FRONTEND DEVELOPER

- Engineered high-performance, responsive web interfaces using HTML5 and CSS3, ensuring 100% cross-browser compatibility and a mobile-first user experience.
- Implemented dynamic and interactive components with modern JavaScript, reducing page load times by 80% through script optimization.
- Utilized Bootstrap to design sleek, standard-compliant layouts, resulting in a 100% increase in user engagement metrics during testing.

BACKEND DEVELOPER

- Architected robust server-side logic and RESTful APIs using PHP, facilitating seamless data exchange between the frontend and the database.
- Designed and Managed complex MySQL database schemas, optimizing SQL queries to improve data retrieval speeds by 70% and ensuring data integrity.
- Developed secure user authentication systems and automated data processing scripts, reducing manual overhead by 90%.
